

Customer Hub Pricing (Growers)

Customer Hub Pricing is Cargill public facing pricing platform. It allows you to view live pricing information for your selected location, commodity, and grade, without the need for an account.

You can also save your bid searches to create your own price watch list and be notified with a published bid matches or exceeds your target price.

Use the drop-down menus to select the market type, port zone and site as per your preference.

Select the commodity, grade, and season you want to sell.

Indicate if the product is sustainable.

Check 'Enable notifications for target price' box and set a target price to receive notifications when published bids reach or exceed the target prices you set.

Save time setting filters by saving your bid searches in the My Saved Bids tab. You can save up to 10 bid searches per market type, and view them all together as table in the 'All' tab.

To save a search, click the 'Add bid search' button. Saved Bid searches will appear in the My Saved Bids tabs once saved.
